Since 1951 when founded as a consulting company Energoprojekt has developed into a complex business system integrating, today, 18 companies in the country and over 40 subsidiaries and joint venture companies abroad.

Energoprojekt has acquired the reputation of a reliable partner and in the course of a period of 57 years it has developed a large spectrum of activities, always offering the highest quality and standards, in the following fields: energy, town planning and environmental protection, infrastructure, architecture, industry, information technologies, trade, real estate, insurance and re-insurance, bond trading and financial mediation, industrial manufacture programs and graphic multi media engineering and digital printing.

In the course of its successful development into one of the leading world-wide companies in the fields of consulting and contracting activities Energoprojekt has been engaged in implementation of various projects and facilities in over 70 countries all over the world. The name of Energoprojekt can be found on the lists of Top International Design firms and International Contractors published every year by the renowned American magazine "Engineering News Record". Successfully completed projects which Energoprojekt realized in the past are the best reference for acquiring new jobs. As a reliable partner with international experience, easily adaptable to various market requirements and flexible, Energoprojekt successfully cooperates with domestic and foreign partners in realization of important investment projects.

Today, Energoprojekt is a complex business system ready to offer large-scale and high quality services in Serbia and abroad.

Projects
