Mace is one of the world's most successful companies in the scope of construction and project management. With its constant modernization and advancement, the company is developing very dynamically and has become one of the largest organizations in its domain. In 1997, Mace has expanded its business outside United Kingdom and began to operate throughout Europe, Asia, Africa and North America.

A large number of satisfied clients and projects performed in an impressive manner gave excellent base to Mace International to open its Head Office in Belgrade, Serbia in 2004 followed by the opening of other offices in South East Europe, bringing our services to the various fields of construction industry in the region.

Recognizing Mace as a reliable partner, innovator in the practice and company that supports a permanent development in various fields of construction industry, in 2004 Philip Morris International engaged us in the project of tobacco factory complex reconstruction in Nis, Serbia. The project was successfully completed in April 2006 and since then Mace SEE is successfully working on more than 20 major projects in the region.

Mace provides a wide range of services, primarily based on the business interests of the Client. Instating a good development strategy from the beginning of the project, we are giving to the Client and other participants the most effective control, performance and the successful finalization of the project.
