Construction company "Napred" is one of the leading companies in the planning, design and construction of investment facilities.

Founded at 1948th for the needs of the Army, "Napred" has grown into a modern company able to apply current technologies and building systems.

With 1200 employees, of which 70 engineers with various profiles, over 100 technicians, 450 highly skilled and 300 skilled workers, providing complete engineering services - from design studies, design, construction, reconstruction, furnishing, monitoring, technological development and economic analysis.

Dealing with this kind of work for more than 55 years, "Napred" has built facilities located in ten countries on three continents.

Constant cooperation with scientific and technical and higher educational institutions, monitoring of global innovation, knowledge of architectural and cultural traditions, architecture and interface design, high level of mechanization are enabling the implementation of projects for investors with different requirements, as well as all types of buildings - residential, commercial, industrial, the most complex reconstruction, civil engineering and infrastructure.

The high professionalism in their performance is the reason for the Napred's numerous awards, both from domestic and foreign investors.

Projects
