- We are going to open a shopping mall for cars in Jurija Gagarina Street. In addition to selling and servicing vehicles, our partners and we will be providing numerous other services to drivers. We have been working for a long time on this project, primarily because of the problems with paper works. It is a greenfield investment that will enable employment of 50 people, while additional 20 people will get jobs in this facility later – Miroslav Stojanovi?, CEO of Autocentar Stojanovi?, said in an interview with eKapija.
